DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	12

Audit Findings

Audit Narrative (including Audit Methodology)

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

PRE-AUDIT PREPARATION

Before the on-site visit, the Institutional PREA Compliance Coordinator (IPCC) conducted an on-site "pre-audit" of the facility to aid in preparation for the audit. The Institutional PREA Compliance Coordinator forwarded to the auditor all policy and supporting documentation, including the completed Pre-Audit Questionnaire, for examination before the on-site visit. The results of the "pre-audit" were discussed with the auditor before the beginning of the audit.

DAY ONE, ON-SITE AUDIT - ENTRANCE BRIEFING, TOUR, AND INVESTIGATIONS REVIEW

The on-site Prison Rape Elimination Act (PREA) audit of the York County Detention Center was conducted from June 29-30, 2020. The audit was completed by The Nakamoto Group, Inc. certified auditor E. Richard Bazzle. Rated as a maximum/medium/minimum security facility, the inmate population on the first day of the audit was 293. This is the third PREA audit for this facility. An entrance meeting was held on the first day of the audit with the Chief Jail Administrator, PREA Compliance Coordinator and other members of the facility executive staff to discuss any concerns regarding the audit process and to finalize the facility tour and interview schedules.

Following the entrance meeting, the auditor was given a complete and comprehensive tour of the facility. The tour included the intake/booking area, all housing units, including the Special Housing Unit (SHU), the medical area, the laundry, all recreation areas, food service, facility support areas, the visiting room, and other programming areas. During the tour, it was noted that there were sufficient staffing, security mirrors, and surveillance cameras to ensure a safe environment for inmates and staff. Also, during the tour, the staff made verbal announcements such as "female on the unit" when the tour group entered each housing unit. The housing areas of the facility are designed to allow inmates to shower, dress, and use the toilet facilities without exposing themselves to employees of the opposite gender. During the tour, numerous informal and formal conversations with both employees and inmates regarding the PREA standards were conducted. Postings that detailed PREA violation reporting and the agency's zero-tolerance policy for sexual abuse and sexual harassment were prominently displayed in all housing units, meeting areas and throughout the facility, to include the visiting area. Audit notice postings with the PREA auditor's contact information were also located in the same areas, as well as the kiosk located in each housing unit for inmate use. These notices were posted six weeks before the audit. The auditor did not receive any letters as a result of the audit notification postings.

DAY TWO, ONSITE AUDIT – STAFF/INMATE INTERVIEWS

On day two of the audit, the auditor selected 27 inmates, both male, and female, to be interviewed. The inmates were randomly selected by the auditor using an inmate roster provided by the PREA Compliance Coordinator. Those interviewed included two inmates who were identified as being handicapped and two LEP inmates. There were no self-identified LGBTIQ inmates in the facility. The interviewed inmates were from all facility housing units, of various ages, nationalities, and ethnic backgrounds. No inmates refused to be interviewed. There were no inmates in protective custody status for any PREA related issue. Overall, all inmates interviewed demonstrated a good understanding of the PREA compliance program, the intake screening process, the prevention and protection process, and reporting methods for sexual assault/sexual harassment. The inmates further stated that staff was responsive to their needs and that they felt safe from sexual abuse at the facility.

During the two days of the audit, the auditor chose at random twelve available employees from a staff roster provided by the PREA Compliance Coordinator to be interviewed. Correctional officers from all shifts were included in the interview process. Staff was aware of the agency's zero-tolerance policy, their responsibilities to protect inmates from sexual abuse and sexual harassment, and were knowledgeable of their duties as first responders as part of a coordinated response. All specialized staff were also interviewed during the audit and included: the Chief Jail Administrator, the IPCC, the Mental Health Counselor, the Investigator, the Retaliation Monitor, the Human Resource Captain, two Intake staff, one Intermediate or Higher Level Staff member, two staff members who perform intake screenings for risk of victimization or abusiveness, as well as the Health Services Administrator. No volunteers or contractors were available for interviews due to the COVID-19 pandemic. A community victim advocate is not available for the facility. Documentation confirmed that numerous attempts by the facility to establish a written agreement with a local victim advocacy group have not been successful. A representative of Justice Detention International (JDI) was contacted for information regarding PREA matters relating to the facility and stated that JDI had no available information for the time of the audit. All individuals interviewed demonstrated an understanding of the PREA and their duties and responsibilities under this program, relative to their position in or with the organization and employment status. No individuals refused to be interviewed.

INVESTIGATIONS

During the audit period, there were 22 allegations of sexual abuse. Nine were determined to be unfounded, twelve were determined to be unsubstantiated and one was determined to be substantiated. None of the allegations required forensic evidence collection by a SANE service provider in the community. The investigations were completed promptly and thoroughly and were well documented. A review of documentation indicated that appropriate actions were taken and required notifications were made.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics, and size of the inmate, resident or detainee population, numbers, and type of staff positions, configuration, and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The mission of the York County Detention Center is to maintain a positive atmosphere for both staff and inmates by providing a safe and secure environment in the most cost-effective manner possible with a professionally trained staff. It is the intention of the York County Detention Center that an inmate shall leave the facility no worse physically, emotionally, or psychologically than when they entered.

The facility, located in the county seat of York, South Carolina, is part of the Moss Justice Center. A multi-level, 149,000 square foot structure constructed in 1995, the facility houses male and female minimum, medium, and maximum-security pre-trial inmates, U.S. Marshal detainees, and Immigration and Custom Enforcement detainees. The rated capacity of the facility is 565 inmates and there are 143 employees, of which 128 have contact with inmates. The inmate population on the day of the audit was 293. The detention center houses all departments within the facility, including administration, security, intake and release services, medical and support services.

The Detention Medical Division provides services to the inmate population by addressing medical, dental, and mental health needs through the use of licensed practitioners. Medical care is provided through a medical staff of four registered nurses, three licensed practical nurses, a pharmacy technician and a records management clerk. Additionally, the facility contracts with a physician, dentist, dental assistant, and a pharmacist. Mental health counseling is provided through Catawba Mental Health.

The Programs Services Manager and the Chaplain recruit, train and manage over approximately two-hundred volunteers who, daily, provide inmate services, such as life skills instruction and Bible studies, as well as religious services and programs, narcotics anonymous, alcoholics anonymous, educational services and other inmate services.

The Chief Jail Administrator has appointed a lieutenant from the Office of Professional Standards as the Institutional PREA Compliance Coordinator (IPCC) who reports directly to the Administrative Services Captain for all PREA related issues. Interviews with the IPCC confirmed that she has sufficient time and authority to coordinate efforts to comply with PREA standards. The facility directives outline a zero-tolerance policy for all forms of sexual abuse and sexual harassment. Inmates are informed about the program and the facility zero-tolerance policy at the time of admission to the facility and periodically during their confinement via publications and through postings throughout the facility (observed during the tour). All written documents are available in English and Spanish. Additional interpretive services are available for inmates who do not speak or read English. All interviews with staff and inmates confirmed that they were aware of the zero-tolerance policy towards all forms of sexual abuse/sexual harassment. The commitment to the enforcement and implementation of the PREA meets the required mandates of this standard. - Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 200.1, Detention Center Staffing; Annual Staffing Review; Events Report; and Security Sergeant Checklist address the requirements of the standard. A review of the facility staffing plan confirmed that PREA issues were considered when filling positions and developing work rosters/assignments. Interviews with the Chief Jail Administrator and Human Resource Captain confirmed that the facility considers the items detailed in the standard when developing the staffing plan. The staffing plan is reviewed at least annually. The IPCC has input into the annual review of the staffing plan as it relates to the PREA.

There have been no judicial findings of inadequacy, findings of inadequacy from federal investigative agencies, or findings of inadequacy from internal or external oversight bodies relevant to this standard. All essential posts are filled each shift and no essential posts are kept open for salary savings. When programs are offered, staffing is increased to provide additional supervision. The review of the Security Sergeant Checklist of unannounced PREA rounds confirmed that intermediate-level or higher-level

supervisors, including shift supervisors, and department heads, at a minimum, conduct, and document such visits throughout the institution, which includes nights and weekends. Staff members are prohibited from alerting other employees regarding unannounced rounds. Interviews with inmates and housing unit officers also confirmed that random, unannounced rounds are conducted by supervisors daily, including nights and weekends. An examination of policy and supporting documentation and all interviews confirmed compliance with this standard.

Does Not Meet Standard (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1200.09, PREA; completed Pre-Audit Questionnaire; interviews with the IPCC; and on-site observation address the requirements of this standard. The policy states that the facility will make its best efforts to separate youthful offenders from adult inmates by sight and sound, to include not placing the youthful offender in a housing unit in which youth have sight, sound, or physical contact with adult inmates, through the use of a shared dayroom or other common space. In areas outside of the housing units, this separation will also be observed, or direct staff supervision will be provided. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1000.15, Searches; and the training curriculum/training logs address the requirements of the standard. The facility's rated capacity exceeds 50 inmates and houses both male and female inmates. The facility does not permit cross-gender strip searches or cross-gender visual body cavity searches, except in exigent circumstances or when performed by medical practitioners. There were no cross-gender visual body cavity or strip searches conducted during the previous twelve months. Officers are required to document all cross-gender strip searches and cross-gender visual body cavity searches if they were to occur. Interviews with staff confirmed that they were aware of the prohibition of a visual body cavity or strip searches of the inmates of the opposite sex except in exigent circumstances. Staff interviews also confirmed that male and female officers had been trained to conduct cross-gender pat searches. Inmate interviews also confirmed that inmates are not delayed or prohibited from attending regularly available programming or other opportunities to comply with this standard.

Observations during the tour of all housing units confirmed that inmates are permitted to shower, perform bodily functions, and change clothing privately. During interviews, inmates stated that staff members/visitors of the opposite sex announce their presence when entering housing units. The auditor observed this procedure during the facility tour. Staff members do not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. Interviews with inmates confirmed that they had been pat searched by officers properly and professionally. Interviews with staff and inmates, observations during the audit, and the examination of policy and supporting documentation confirm compliance with this standard.

- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 900.04, Adult Inmate Orientation; 1200.09, Prison Rape Elimination Act (PREA); Interpreter Contracts; and documentation of PREA training address the requirements of the standard. The facility policy and practice ensure that inmates with disabilities have an equal opportunity to participate in and benefit from all aspects of the agency’s efforts to prevent, detect and respond to sexual abuse and sexual harassment. All printed PREA related information, including postings, brochures and handouts are available in English, Spanish, and other languages. Translation services are also available through a contracted language service for inmates when needed. The auditor interviewed two LEP inmates using the contracted translation service. The facility does not rely on inmate interpreters, inmate readers, or other types of inmate assistants in the performance of first responder duties or during the investigation of an inmate’s allegations. Interviews with first responders, medical, mental health, and investigative staff confirmed their awareness of the prohibition of using inmate interpreters for inmate allegations of PREA related incidents. Interviews with staff and inmates and a review of policy and supporting documentation confirmed compliance with this standard.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 300.01, Recruitment, Selection, and Hiring; and 300.04, Personnel Files, address this standard. Review of pre-employment personnel files and an interview with the Human Resource Captain by the auditor confirmed compliance with all aspects of this standard. All employees who have contact with inmates have had a full field background investigation in addition to fingerprinting and inquiry into the FBI's National Crime Information Center (NCIC). Employee backgrounds are re-checked every five years. Contractors and volunteers who have regular contact with inmates also have criminal background checks completed before having contact with inmates. Volunteer and contractor background checks are repeated annually. The facility does not hire or promote anyone who may have contact with inmates and does not enlist the services of any contractor who may have contact with inmates, who has engaged in any type of sexual abuse/sexual harassment (no exceptions).

The policy states that employees have a continuing duty to disclose misconduct. Material omissions regarding such misconduct are grounds for termination. The submission of false information by any applicant is grounds for not hiring the applicant. The Human Resource Captain stated that the agency attempts to contact prior employers for information on substantiated allegations of sexual abuse or resignations which occurred during a pending investigation of sexual abuse. Also, the facility provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee to the law enforcement/certification agency within the state. The facility notifies appropriate licensing/certifying agencies when professional staff members are terminated for substantiated allegations of sexual abuse or sexual harassment. A review of policy, personnel files, and relevant supporting documentation, along with staff interviews, confirmed compliance with this standard.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Since August 20, 2012, the York County Detention Center has not acquired a new facility. A review of submitted documentation, on-site observation of video systems, and discussion with IPCC indicated an on-going process of researching and upgrading technology to assist in PREA compliance. Currently, the facility has an adequate number of cameras and numerous security mirrors strategically placed to monitor inmate activity and provide safety without creating privacy issues.

Auditor Overall Compliance Determination

Exceeds Standard (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1200.09, PREA, addresses this standard. Interviews with correctional and health services personnel confirmed that they were all knowledgeable of the required procedures for obtaining, preserving, and securing physical evidence, when sexual abuse is alleged. Staff members were aware that the facility's investigator conducted investigations relative to sexual abuse/sexual harassment allegations. The facility follows a uniform evidence protocol as described in the U.S. Department of Justice's Office on Violence against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents."

Victims of sexual assault are referred to the medical department for initial examination and treatment. Such treatment would be for life preservation only and the victim would be transported to a community hospital for examination, treatment, and forensic evidence gathering by a Sexual Assault Nurse Examiner (SANE). All sexual abuse examinations, treatment, testing, and follow-up care are provided without cost to the victim. The Sheriff's Department Sexual Abuse Unit members are trained as victim advocates and would provide advocacy services to an inmate that had been a victim of sexual abuse. Routinely, administrative investigations are conducted by trained investigators who are full-time employees of the facility. The Chief Jail Administrator generates the referral to the outside agency. The review of training records confirmed that investigators have received investigator training offered by the American Jail Association and FBI-LEED on the investigation of sexual abuse and sexual harassment in confinement settings. Justice Detention International, a national victim advocacy agency, was contacted by the auditor but had no information about the facility during the audit period.

The facility is only responsible for conducting administrative investigations. All criminal sexual abuse investigations are referred to the York County Sheriff's Office. Interviews with staff, which included the line staff, IPCC and medical personnel, indicated that all were well versed in their roles of following established protocols for protecting the victim, securing the crime scene, ensuring medical examination protocols and following investigative procedures for the collection of usable physical evidence for administrative and criminal prosecutions. All employees were aware that allegations of sexual misconduct are referred to the IPCC and, if necessary, to the York County Sheriff's Office, for investigation. The facility has available the services of Sexual Assault Nurse Examiners (SANE) through a local medical facility. No SANE examinations were conducted during this reporting period. If this service or any other medical treatment is required, the inmate incurs no expense. A review of policy and support documentation, as well as interviews with the investigator and other staff members, confirmed compliance with this standard.

Standard 115.22: Policies to ensure referrals of allegations for investigations

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.22 (a)

- Does the agency ensure an administrative or criminal investigation is completed for all allegations of sexual abuse? Yes No
- Does the agency ensure an administrative or criminal investigation is completed for all allegations of sexual harassment? Yes No

115.22 (b)

- Does the agency have a policy and practice in place to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior? Yes No
- Has the agency published such policy on its website or, if it does not have one, made the policy available through other means? Yes No
- Does the agency document all such referrals? Yes No

115.22 (c)

- If a separate entity is responsible for conducting criminal investigations, does the policy describe the responsibilities of both the agency and the investigating entity? (N/A if the agency/facility is responsible for criminal investigations. See 115.21(a).) Yes No NA

115.22 (d)

- Auditor is not required to audit this provision.

115.22 (e)

- Auditor is not required to audit this provision.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 1200.09, PREA; 300.06, Internal Affairs Investigation; and web-site postings address this standard. The policy requires that administrative or criminal investigations be conducted on all allegations of sexual misconduct. Investigations are conducted by the IPCC and referred to the York County Sheriff's Office, if necessary. An interview with the IPCC and review of the training documentation of York County Sheriff's Office investigators indicated a high degree of knowledge and responsibility in conducting investigations relating to the PREA. During the audit period, there were 22 allegations of sexual abuse. Nine were determined to be unfounded, twelve were determined to be unsubstantiated and one was determined to be substantiated. A review of documentation indicated that the investigations were carried out in a timely, thorough, and professional manner. Appropriate actions and notifications were made. Facility policy regarding the referral of sexual abuse or sexual harassment for a criminal investigation is published on the York County Detention Center's website. The policy requires administrative or criminal investigations to be completed on all allegations of sexual abuse or sexual harassment. Administrative investigations are routinely completed by the IPCC. If, during an investigation, evidence surfaces indicating criminal misconduct, the case would be referred to the York County Sheriff's Office for criminal investigation. The IPCC was interviewed and was aware of her responsibilities in the investigative process. An investigation would never be terminated due to an inmate being transferred or released or an employee leaving the agency. A review of training documents confirmed that the IPCC received instruction in conducting sexual assault investigations in a confinement setting. Interviews with staff members and the investigator and an examination of policy/supporting documentation confirmed compliance with this standard.

Policy 1200.09, Prison Rape Elimination Act (PREA), addresses this standard. The review of volunteer and contractor PREA training sign-in forms, files and other documents by the auditor confirmed that all facility contractors and volunteers have received training related to their responsibilities concerning the PREA (zero-tolerance, detection, prevention, response and reporting requirements) during the previous twelve months and annual refresher training. A review of the PREA contractor and volunteer training presentation further confirmed that the level of instruction is appropriate for the services provided and emphasizes the facility's zero-tolerance and reporting policies. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Does Not Meet Standard (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 1200.09, PREA; and 800.04, Intake of Newly Received Inmates; Inmate Orientation Handbook; and a PREA video address this standard. During in-processing procedures, each inmate receives an Inmate Handbook which describes the agency's PREA compliance program. The information identifies the key elements of the program and informs inmates of the zero-tolerance policy regarding sexual abuse and sexual assault and multiple ways to report incidents or suspicions of sexual abuse or sexual harassment. The information also informs the inmates they will be free from retaliation for reporting an incident and that both male and female staff members routinely work in and monitor the housing units. The information is available in English, Spanish, and other languages. A classification staff member conducts an education program regarding the PREA for all inmates during the intake process. The program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies, and reporting modalities. Inmates sign and acknowledge their receipt of this information on a form that is placed in their file.

Inmates also have access to a kiosk in each housing unit which also provides PREA information and a reporting outlet. Staff interpreters and telephonic translation services are available to inmates who are not proficient in English or are otherwise unable to communicate (deaf, blind, mentally impaired, etc.). Inmate interviews confirmed that they received PREA information and they were aware of numerous reporting methods, including anonymous and third-party reporting, the zero-tolerance policy, and their right to be free from retaliation. The tour of the facility confirmed that several PREA education posters were prominently displayed in the receiving and discharge area, all housing units, and other common areas. If an inmate is received from another facility, the policy requires that this training process be repeated at the York County Detention Center. Interviews with staff and inmates, visual observations of posters, and an examination of policy/documentation confirmed compliance with this standard.

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1200.09, PREA; and American Jail Association and FBI-LEEDA training certifications address this standard. The facility investigator (IPCC) has received PREA specialized training through the American Jail Association in Investigating Sexual Abuse in a Confinement Setting, and Internal Affairs Investigations through the FBI-LEEDA as required by the standard. The auditor reviewed specialized training documentation. Administrative investigations are conducted by the facility. When criminal investigations are indicated, they are conducted by trained investigators of the Internal Affairs and Sex

Offense Crime Units of the York County Sheriff's Office. Interviews with staff and the facility investigator and an examination of policy/documentation confirmed compliance with this standard.

115.35 (c)

- Does the agency maintain documentation that medical and mental health practitioners have received the training referenced in this standard either from the agency or elsewhere? (N/A if the agency does not have any full- or part-time medical or mental health care practitioners who work regularly in its facilities.) Yes No NA

115.35 (d)

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1200.09, PREA; review of training documentation; and current state licenses of medical and mental health staff address the requirements of this standard. A review of training records indicated that all mental health and medical staff have received specialized training in detecting and assessing signs of sexual abuse and sexual harassment, preserving physical evidence, effective and professional resources, and understanding sexual trauma in custody. Training does not refer to certifications needed to conduct forensic examinations. All cases requiring the processing of sexual assault evidence collection kits are transported to a community hospital where Sexual Assault Nurse Examiners (SANE) are available. Specialized training is in addition to other mandated PREA training. Lesson plans and annual refresher training documentation were reviewed. Interviews with medical and mental health staff confirmed the provision of specialized training and that they are aware of their duty to report and address allegations and suspicions of sexual abuse/sexual harassment. A review of the training documentation and policy confirm compliance with this standard.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 800.04, Intake of Newly Received Inmates; 900.02, Classification Plan; 1200.09, PREA; PREA Booking Questionnaire; and Sexual Abuse/Victimization Risk Reassessment Form address the requirements of this standard. All inmates are immediately assessed for a history of sexual abusiveness and risk of sexual victimization during in-processing procedures performed in the booking area. The policy prohibits disciplining inmates for refusing to answer or for not disclosing complete information during the screening. If transferred from another facility, the inmate receives a completely new screening upon arrival. A classification officer screens all new arrivals within the first 72 hours of the inmate's arrival, but this activity ordinarily occurs within a few hours on the day of arrival. The review of ten screening documents from the past twelve months by the auditor confirmed that inmates identified at high risk for sexual victimization or risk of sexually abusing other inmates were referred to a mental health professional and all received a further assessment. Staff members also conduct screenings by reviewing records or other information from other facilities, new referrals, or for any other relevant reason. This procedure is an on-going process. A classification officer reviews all relevant information from other facilities and continues to reassess an inmate's risk level within 30 days of his arrival. Information received during the screening process is confidential and only available to staff with a need-to-know and never to other inmates. The facility does detain individuals solely for civil immigration purposes through the ICE 287g Program. Staff/inmate interviews, an examination of policy/documentation, and observations of the intake process confirmed compliance with this standard.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 800.04, Intake of Newly Received Inmates; 900.01, Initial Classification; 900.02, Classification Plan; and PREA Risk Assessment Forms address the requirements of this standard. The policy

requires the use of an objective screening instrument to determine housing, work, education, and programming assignments to keep inmates at high risk of being sexually abused from inmates at high risk of being sexually abusive. Housing and programming assignments are determined on a case-by-case basis. The transgender or intersex inmate's own views with respect to their safety are given consideration. These determinations are made to ensure the safety of each inmate and are reassessed at least twice annually. Transgender or intersex inmates are allowed to shower separately and are not housed separately based solely on their sexual identity or status. No intersex or transgender inmates were assigned to SHU during the past 12 months. Compliance with this standard was determined by a review of policy and documentation, as well as inmate and staff interviews.

Standard 115.43: Protective Custody

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.43 (a)

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 800.04, Intake of Newly Received Inmates; 900.01, Initial Classification; 900.02, Classification Plan; and Inmate Classification Review Logs address this standard. Policy states inmates at high risk of sexual victimization shall not be placed in administrative detention unless an assessment of all available alternatives has been made, and a determination has been made that there is no available means of separation from likely abusers. The basis for this concern and reason (s) why no alternative means of separation is available is documented. If an inmate were to be placed in administrative detention, the IPCC stated a status review would be held weekly. The policy requires that an inmate in this status shall continue to have access to all programs, privileges, education, or work opportunities, to

the extent possible. If they are limited, the Captain ensures documentation includes the reasons for the limitation, the duration, and the rationale for this action. During this reporting period, no inmate at the York County Detention Center was placed in segregation after he/she was identified as being at risk for sexual victimization. Compliance with this standard was determined by a review of policy documentation and staff interviews.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 1200.09, PREA; 800.04, Intake of Newly Received Inmates; Inmate Handbook; PREA Inmate Education Certification Forms (English/Spanish); PREA related events reports; and PREA postings address this standard. A review of documentation, interviews with staff and inmates, and observation of postings indicated that there are multiple ways for inmates to report sexual misconduct verbally or in writing directly to staff, anonymously, through a third party, or a local private victim rape crisis hotline. Additionally, information is provided for inmates to directly contact the York County Sheriff's Office. During the tour, telephone numbers of national and local private agencies were observed for inmate use to report PREA related matters. The facility does house inmates detained solely for civil immigration purposes and are provided information and telephone numbers to contact relevant consular officials and relevant officials at the Department of Homeland Security. All staff members are trained to immediately document and report any allegation of sexual misconduct submitted by an inmate or information received through a third party. The policy also provides staff with a private avenue to contact officials to privately report sexual misconduct. Compliance with this standard was determined by a review of policy and documentation, observation, and inmate and staff interviews.

Standard 115.52: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.52 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. This does not mean the agency is exempt simply because an inmate does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of

explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No

115.52 (b)

- Does the agency permit inmates to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency always refrain from requiring an inmate to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (c)

- Does the agency ensure that: An inmate who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by inmates in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Does Not Meet Standard (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 1200.09, PREA; 1200.06, Inmate Grievances; and an interview with PREA Compliance Coordinator address this standard. The policy allows inmates to file an Inmate Grievance Form concerning sexual misconduct without time limit constraints and does not require the inmate to use any informal grievance process before filing an allegation involving sexual abuse/sexual harassment. A grievance filed alleging sexual abuse/sexual harassment results in the immediate opening of a formal investigation. The policy does not require an inmate to seek an informal resolution to a PREA complaint and prohibits the request from having to be submitted to a staff member who may be the subject of the complaint. Additionally, the request may not be investigated by staff under the supervision of the person who may be the subject of the complaint. The policy contains time limits and procedures for responding to and processing the request alleging sexual abuse, as well as documenting third party filings, as required by the PREA standard. No grievance was filed during this reporting period alleging sexual abuse/sexual harassment at the York County Detention Center. Compliance with this standard was determined by a review of policy and documentation and staff interviews.

The documentation provided demonstrated numerous attempts to engage a local advocacy organization, without success. A trained victim advocate from the York County Sheriff's Office Victim Assistance Unit is available if needed. Information is provided to inmates on how to place a confidential call to national advocacy organizations. Additionally, mailing addresses to these advocacy groups are posted. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1200.09, PREA; and supporting documentation address this standard. Facility policy requires the Chief Jail Administrator to report any PREA related allegation by an inmate that occurred at another facility to the Warden of the facility where the alleged incident occurred as soon as possible. Such notifications are documented. The policy also requires the facility to receive the information from another facility of an allegation of sexual abuse to investigate the allegation. York County Detention Center has not been notified of an alleged incident of sexual abuse at another facility during this reporting period. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1200.09, PREA; and review of documentation address this standard. Interviewed staff members were very knowledgeable of their responsibilities as first responders. Interviewed staff indicated that, after separating the alleged victim and abuser and not allowing any evidence to be destroyed, the policy would be followed, which requires the first responder to preserve the crime scene and notify the shift supervisor. The shift supervisor would continue the protection of the inmate and notify medical, mental health, and administrative staff. The investigation, in coordination with the agency to which the case may be referred, must follow the guidance given in facility policies and practices concerning evidence gathering and processing procedures. During this reporting period, the York County Detention Center had 22 allegations that an inmate had been sexually abused. A review of documentation of the incidents indicated that the first responder involved took appropriate action to

safeguard the inmate making the allegation. Compliance with this standard was determined by a review of policy and documentation and staff interviews.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1200.09, PREA, addresses this standard. Facility policy forbids any type of retaliation towards any staff member or inmate who has reported an incident of sexual abuse or sexual harassment or who has cooperated with an investigation into such matters. York County Detention Center may use multiple protection measures to ensure the safety and well-being of both an inmate and staff member involved in a PREA related incident. The IPCC monitors staff and inmates who have reported sexual abuse allegations to protect them from retaliation for 90 days. In the case of inmates, periodic status checks occur. Depending on circumstances, these checks may occur more frequently or be extended beyond 90 days. The facility reported no incidents of retaliation reported during this reporting period. Compliance with this standard was determined by a review of policy and documentation and staff interviews.

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Does Not Meet Standard (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 1200.09, PREA; and 900.02, Classification Plan, address this standard. Facility policy states inmates at high risk of sexual victimization or alleged sexual abuse shall not be placed in administrative detention unless an assessment of all available alternatives has been made, and a determination has been made that there is no available means of separation from likely abusers. The basis for this concern and the reason (s) why no alternative means of separation is available is documented. If an inmate is placed in administrative detention, a status review shall be held every 30 days. During the reporting period, York County Detention Center reported no inmates were placed in administrative detention due to allegations or concerns of sexual assault. Staff interviewed and the tour of the facility indicated that there are usually viable alternatives to placing a victim of sexual abuse/sexual harassment in involuntary administrative detention. To the extent possible, access to programs, privileges, education, and work opportunities would not be limited to an inmate placed in administrative detention. Compliance with this standard was determined by a review of policy and documentation and staff interviews.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies 1200.09, PREA; and 300.06, Internal Affairs Investigations, address this standard. Facility policy is comprehensive and requires that an investigation into an allegation of sexual abuse and sexual harassment be conducted promptly, thoroughly, and objectively, including reports received from third parties and anonymously. The facility IPCC conducts administrative investigations within the facility and was interviewed by the auditor. If an allegation appears to be criminal, the IPCC, in conjunction with the Chief Jail Administrator, will refer the incident to the York County Sheriff's Department for a criminal investigation. The Sheriff's Department investigator consults with the County Solicitor for possible prosecution. A review of documentation indicated that investigative staff, as well as other law enforcement agencies, received specialized training in sexual abuse investigations. This training included gathering and preserving evidence from a crime scene and interviewing alleged victims, alleged perpetrators, and witnesses, as well as reviewing complaints and reports of sexual abuse involving the suspected perpetrator if previous complaints and reports were substantiated. The credibility of anyone involved will be assessed on an individual basis and not determined by the person's status as staff or inmate. No inmate is required to submit to a polygraph as a condition of proceeding with the investigation. Administrative investigations are required to determine if staff actions or failures to act, the physical layout of the facility, staffing patterns, or institutional operations, etc. contributed to the abuse. York County Detention Center reported twelve unsubstantiated and one

substantiated allegation during this reporting period. Compliance with this standard was determined by a review of policy and documentation and staff interviews.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Facility policy requires that, following an investigation into an inmate's allegation that they have suffered sexual misconduct in the facility, the inmate is notified verbally or in writing by the IPCC as to whether the allegation was substantiated, unsubstantiated or unfounded. Reports indicated that 22 reports allegations of sexual misconduct were investigated during this reporting period. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1200.09, PREA, addresses this standard. Facility policy states that inmate sexual relationship/contact by a contractor or volunteer is forbidden. Any allegation of sexual abuse is thoroughly investigated and, when appropriate, referred to any law enforcement or relevant professional certifying/licensing bodies by the agency, unless the activity was not criminal. During the reporting period, there were no allegations of sexual misconduct with an inmate involving contractors or volunteers. Compliance with this standard was determined by a review of policy and documentation and staff interviews.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 1100.00, Inmate Discipline; and documentation of the incident and disciplinary reports address this standard. Facility policy states inmates shall be subject to disciplinary sanctions under a formal disciplinary process following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for inmate-on-inmate sexual abuse. The disciplinary process considers whether an inmate's mental disabilities or mental illness contributed to his behavior when determining what type of sanction, if any, should be imposed. Any sanctions are commensurate with the nature and circumstances of the abuse committed, the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories. If mental disabilities or mental illness is a factor, the facility considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. All sexual contact between inmates is prohibited. If sexual contact occurs between an inmate and staff member, the inmate may only be disciplined upon a finding that the staff member did not consent to such contact. Inmates are not disciplined for allegations of sexual misconduct made in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegations. During the reporting period, there were no disciplinary sanctions against inmates issued as a result of sexual misconduct with other inmates or sexual misconduct with staff. Compliance with this standard was determined by a review of policy and documentation and staff interviews.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy 800.04, Intake of Newly Received Inmates; and Inmate Activity Logs address this standard. Medical, mental health, and specialized staff interviews confirmed that the facility has a comprehensive system for collecting medical/mental health information relevant to the PREA, with the ability to provide continued re-assessment and follow-up services. A review of intake screening documents from the audit period indicated screening for prior victimization is conducted by intake staff during in-processing procedures. This screening process includes screening for previous sexually assaultive behavior in an institutional setting or the community. The review of completed Intake Activity Log Forms indicated that inmates who disclose prior victimization or abusiveness are offered a follow-up meeting with medical/mental health staff within fourteen days. Information related to sexual victimization or abusiveness is limited to medical and mental health practitioners and other staff with a need-to-know for determining treatment plans, housing, work, program assignments, and management decisions.
