MAKE THEM THINK TWICE

- Use alarm systems.
- Do not advertise your property by leaving items outside or garage doors open. Remove valuable items from view.
- Secure your residence by locking doors and windows.
- Have neighbors collect mail and papers. Property check with the YCSO.
- Be wary of door to door solicitations. No one unsupervised in home.
- Report all acts of theft or suspicious activity, don't regret not calling.

INVENTORY YOUR HOME

- Keep an updated inventory of valuables to include: brand, make/model, serial numbers, value, and if possible, photos of items such as jewelry.
- Also, take video of the belongings in your home, garage, and/or storage buildings and store video in a safe location.

HOME SECURITY LIGHTS

- Lighting could deter burglars.
- A house can benefit by leaving lights on during hours of darkness.
- Lighting assists police with street address identification and gives the entire neighborhood a more secure feeling.
- Motion-activated lighting can increase the potential for witnesses by suddenly illuminating the environment, and it may create a "flight" response in a perpetrator.
